## EXCEPTIONAL PERFORMANCE

- NSF CERTIFIED
- OUR MOST POWERFUL, QUIETEST AVAILABLE 1.3HP high efficiency DC motor\* is designed to run longer and delivers optimum torque with less heat build-up. Easily handles recipes requiring longer mixing, kneading and whipping times. The all-metal, precise gear design produces a smooth, quiet sound.
- LARGE CAPACITY Easily mixes recipes with up to 14 cups flour, 13 dozen cookies or knead dough for 8¼ loaves of bread in a single bowl.
- OUR MOST EFFICIENT Advanced feedback control communicates in micro seconds to the motor to ensure optimal power is delivered to the bowl.
- SPEED CONTROL PROTECTION Built-in safety feature reduces the risk of accidentally turning on the mixer when wiping it clean.

\*Motor horsepower for our mixer motors was measured using a dynamometer, a machine laboratories routinely use to measure the mechanical power of motors. Our 1.3 horsepower (HP) motor reference reflects the horsepower rating of the motor itself and not the mixer's horsepower output to the mixer bowl. This robust motor, the backbone of our new mixer, delivers .44HP to the bowl enabling your mixer to deliver consistent power to small and large loads with less heat build-up; resulting in years of dependable mixing. When combined with and guided by our new advanced motor control board, this is our longest lasting and most efficient motor yet. Simply put, our new, highly efficient, special purpose motor delivers the power you need when you need it.
